To the Board of Directors of  
**Tecnostrutture S.r.l.**  
and to all interested parties

## ASSURANCE STATEMENT

Intertek Italia S.p.A. (Intertek) was mandated by Tecnostrutture S.r.l. (Tecnostrutture) to carry out an independent assessment of the Sustainability Report for the year 2022, in order to verify the correct application of **GRI Standards 2021**, including the relevance and reliability of its contents with respect to stakeholders' expectations.

Intertek has not played any direct or indirect role in the preparation of the document, whose contents are the sole responsibility of Tecnostrutture.

Intertek declares its independence and absence of conflicts of interest with regard to Tecnostrutture and its stakeholders.

The assessment was accomplished considering in particular the international standard ISAE 3000 (Revised), in "limited assurance" mode.

Our task involved:

- a completeness and consistency analysis of the Sustainability Report under assessment with respect to the standards adopted by Tecnostrutture;
- the investigation of qualitative and quantitative aspects deemed to be significant for stakeholders;
- the interview on a sample basis of Tecnostrutture staff and interested parties' representatives.

## CONCLUSION

Based on the above activities and selected sample, no contrary evidence arose to let us conclude that:

- the Sustainability Report of Tecnostrutture S.r.l. for the year 2022 has been prepared in substantial compliance with **GRI Standards 2021**;
- the data and information included in the Report are consistent with the assessed documents.

We therefore believe that the Sustainability Report of Tecnostrutture S.r.l. for the year 2022 contains an adequate representation of impacts, strategies and sustainability performances of the company, with respect to GRI reporting principles and stakeholders' expectations.

Best regards.
